

Disclaimer

These charts have been effectively used since 2004. As all Imaging Departments have different standards for mottle, noise and burn, you **must** check all of your new technique images with your radiologist or physician. Your M.D. always has the final say if an image is diagnostic. MTMI or Digital Radiography Solutions (dRs) cannot be held responsible for any images taken or passed in your facility.

Disclaimer: Digital Radiography Solutions cannot be held responsible for any images taken or passed at your facility. Your radiologist or physician always has the final say if the image is of diagnostic value.
